

PRESS RELEASE

ColliCare Holding AS sells subsidiary Viasea Shipping

November 13th, 2025; Ellerman City Liners, a GB Global company, acquires Viasea Shipping from ColliCare Holding AS.

Viasea Shipping was founded in 2016, and has established itself as a challenger in the shortsea market, operating regular schedules between the UK, Norway, the Netherlands, Poland, and Lithuania. With offices in Moss, Rotterdam, Gdynia, Klaipeda, and Immingham, Viasea offers a flexible and agile organization, direct customer engagement, and environmentally-friendly alternatives to road freight.

CEO of ColliCare Group, Knut Sollund comments;

The vision behind Viasea was to move cargo flows from the roads over to the sea. After only a couple of years in operation, Viasea became one of the largest customers in the port of Oslo. After 9 years of continuous growth it was the right step for Viasea to seek for a bigger environment. Within the GB Global family, Viasea will have great opportunities to continue on the path of moving even more cargo from the roads over to the waterways.

ColliCare Logistics has grown to a scale that requires dedicated attention from our leadership team. Connecting with Ellerman at this moment was exceptionally well-timed.”

Together, Ellerman City Liners and Viasea Shipping are set to become one of Europe's leading shortsea operators, offering smarter, greener, and more connected shipping solutions

The transaction will be completed in November.

All questions about the future plans for Viasea Shipping can be directed to;

David Gladen
